

# Build a Complete Learning and Facilitation Package

*Adult Learning / Curriculum Development / Facilitation Readiness*

SOURCE CONTENT

DESIGN

READY TO DELIVER

# When Existing Content Needs a Complete Delivery System

1

## The source content already exists

The organization has core content and a program foundation.

2

## Adult learning shapes usability

Content must support engagement, practice, and transfer.

3

## Structure supports learning transfer

Sequence, practice, and guidance shape how learners use the material.

4

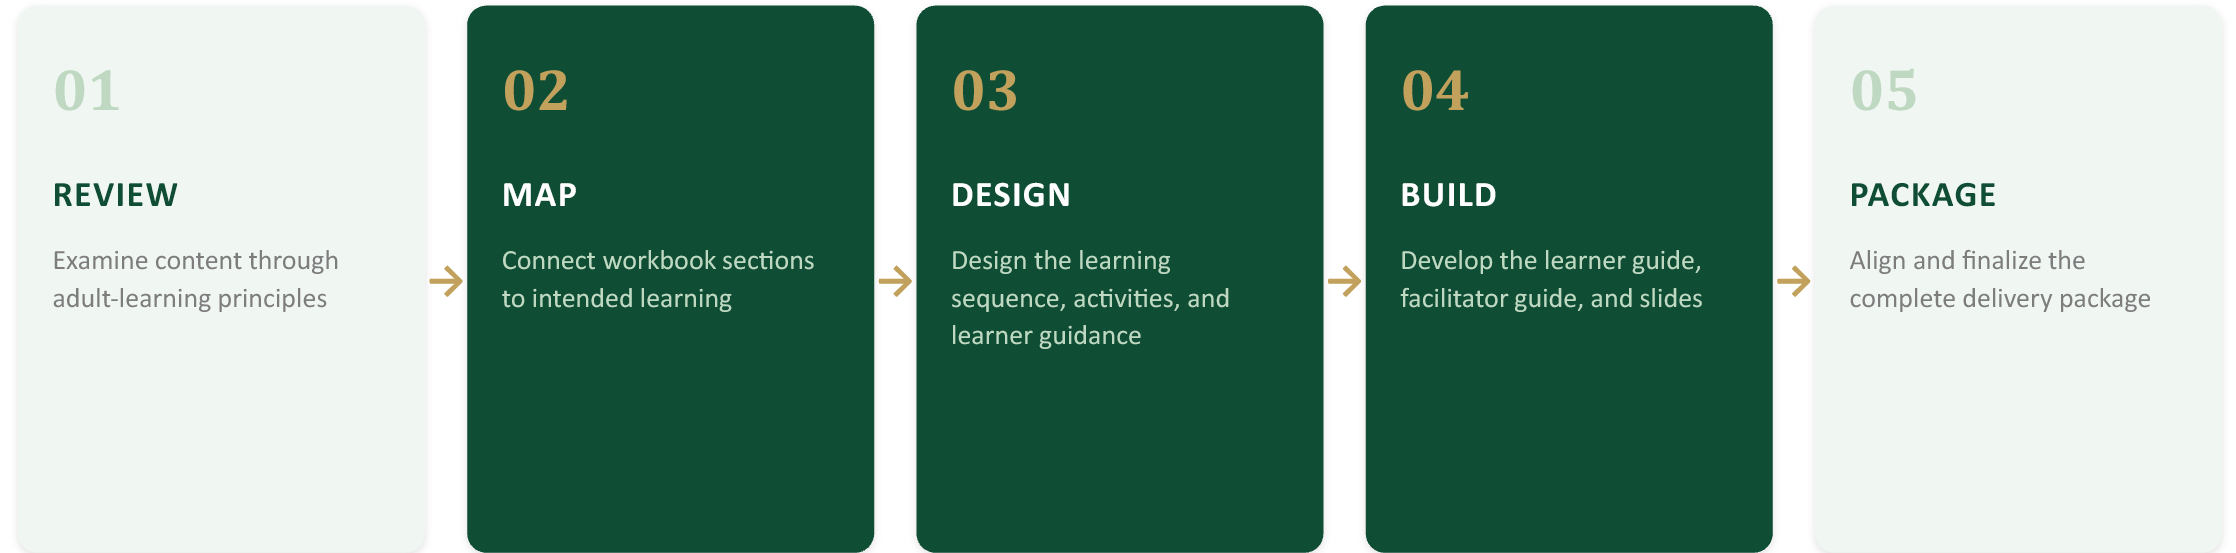

## Facilitators need delivery support

Consistent delivery requires aligned guides, slides, and facilitation tools.

*EBS transformed existing content into an integrated learner guide, facilitator guide, and slide deck.*

## THE APPROACH

# From Existing Content to a Complete Learning and Facilitation Package

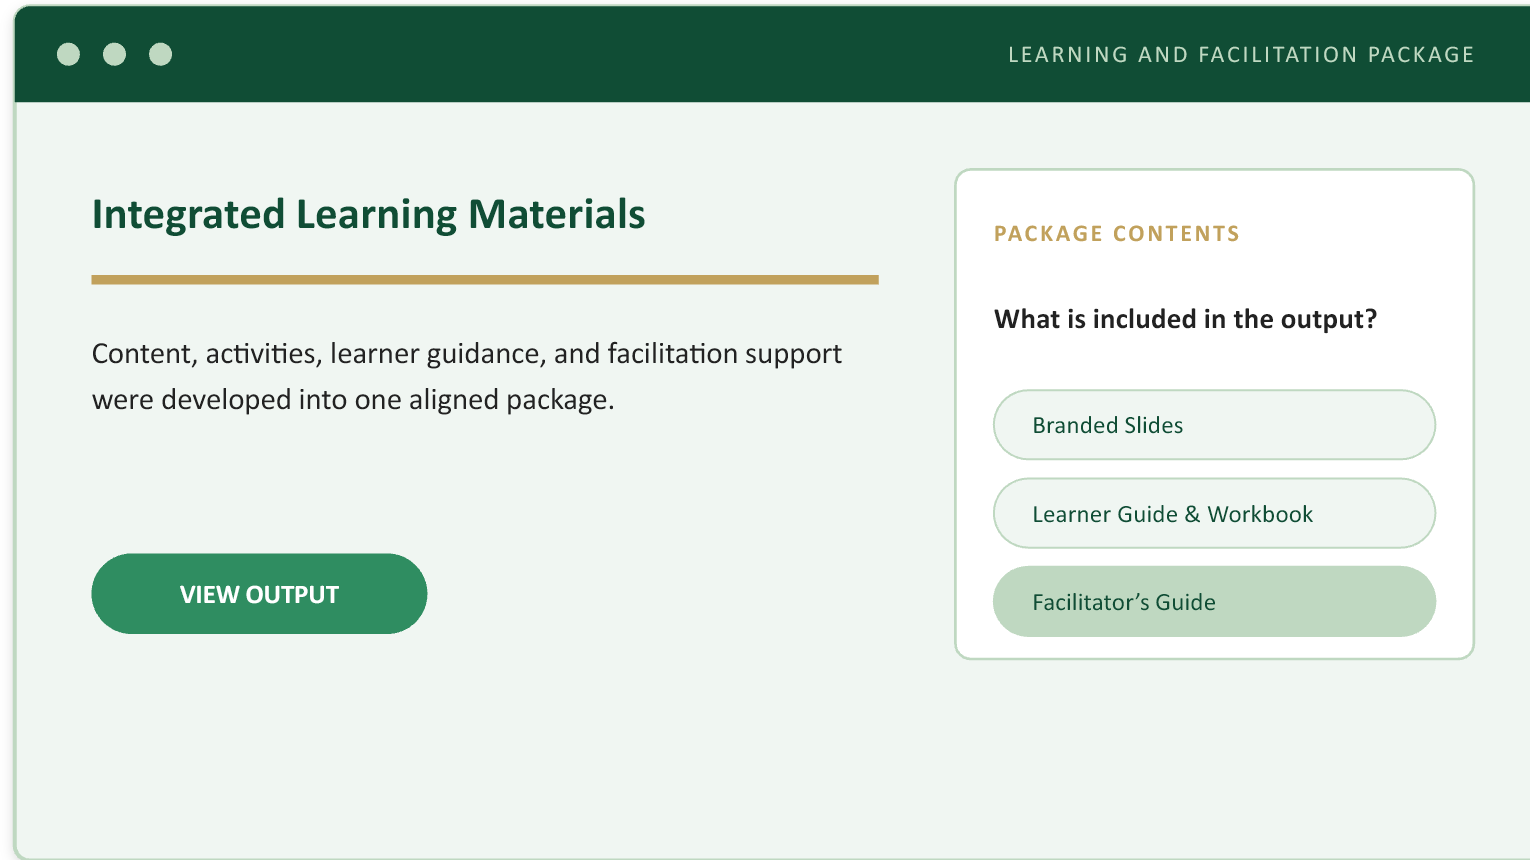

*The completed package gave the organization aligned tools for learning, facilitation, and consistent delivery.*

SEE THE WORK

# Output: Complete Learning and Facilitation Package

WHAT THE PACKAGE CONNECTS

# From Existing Material to a Full Learning & Facilitation Package
